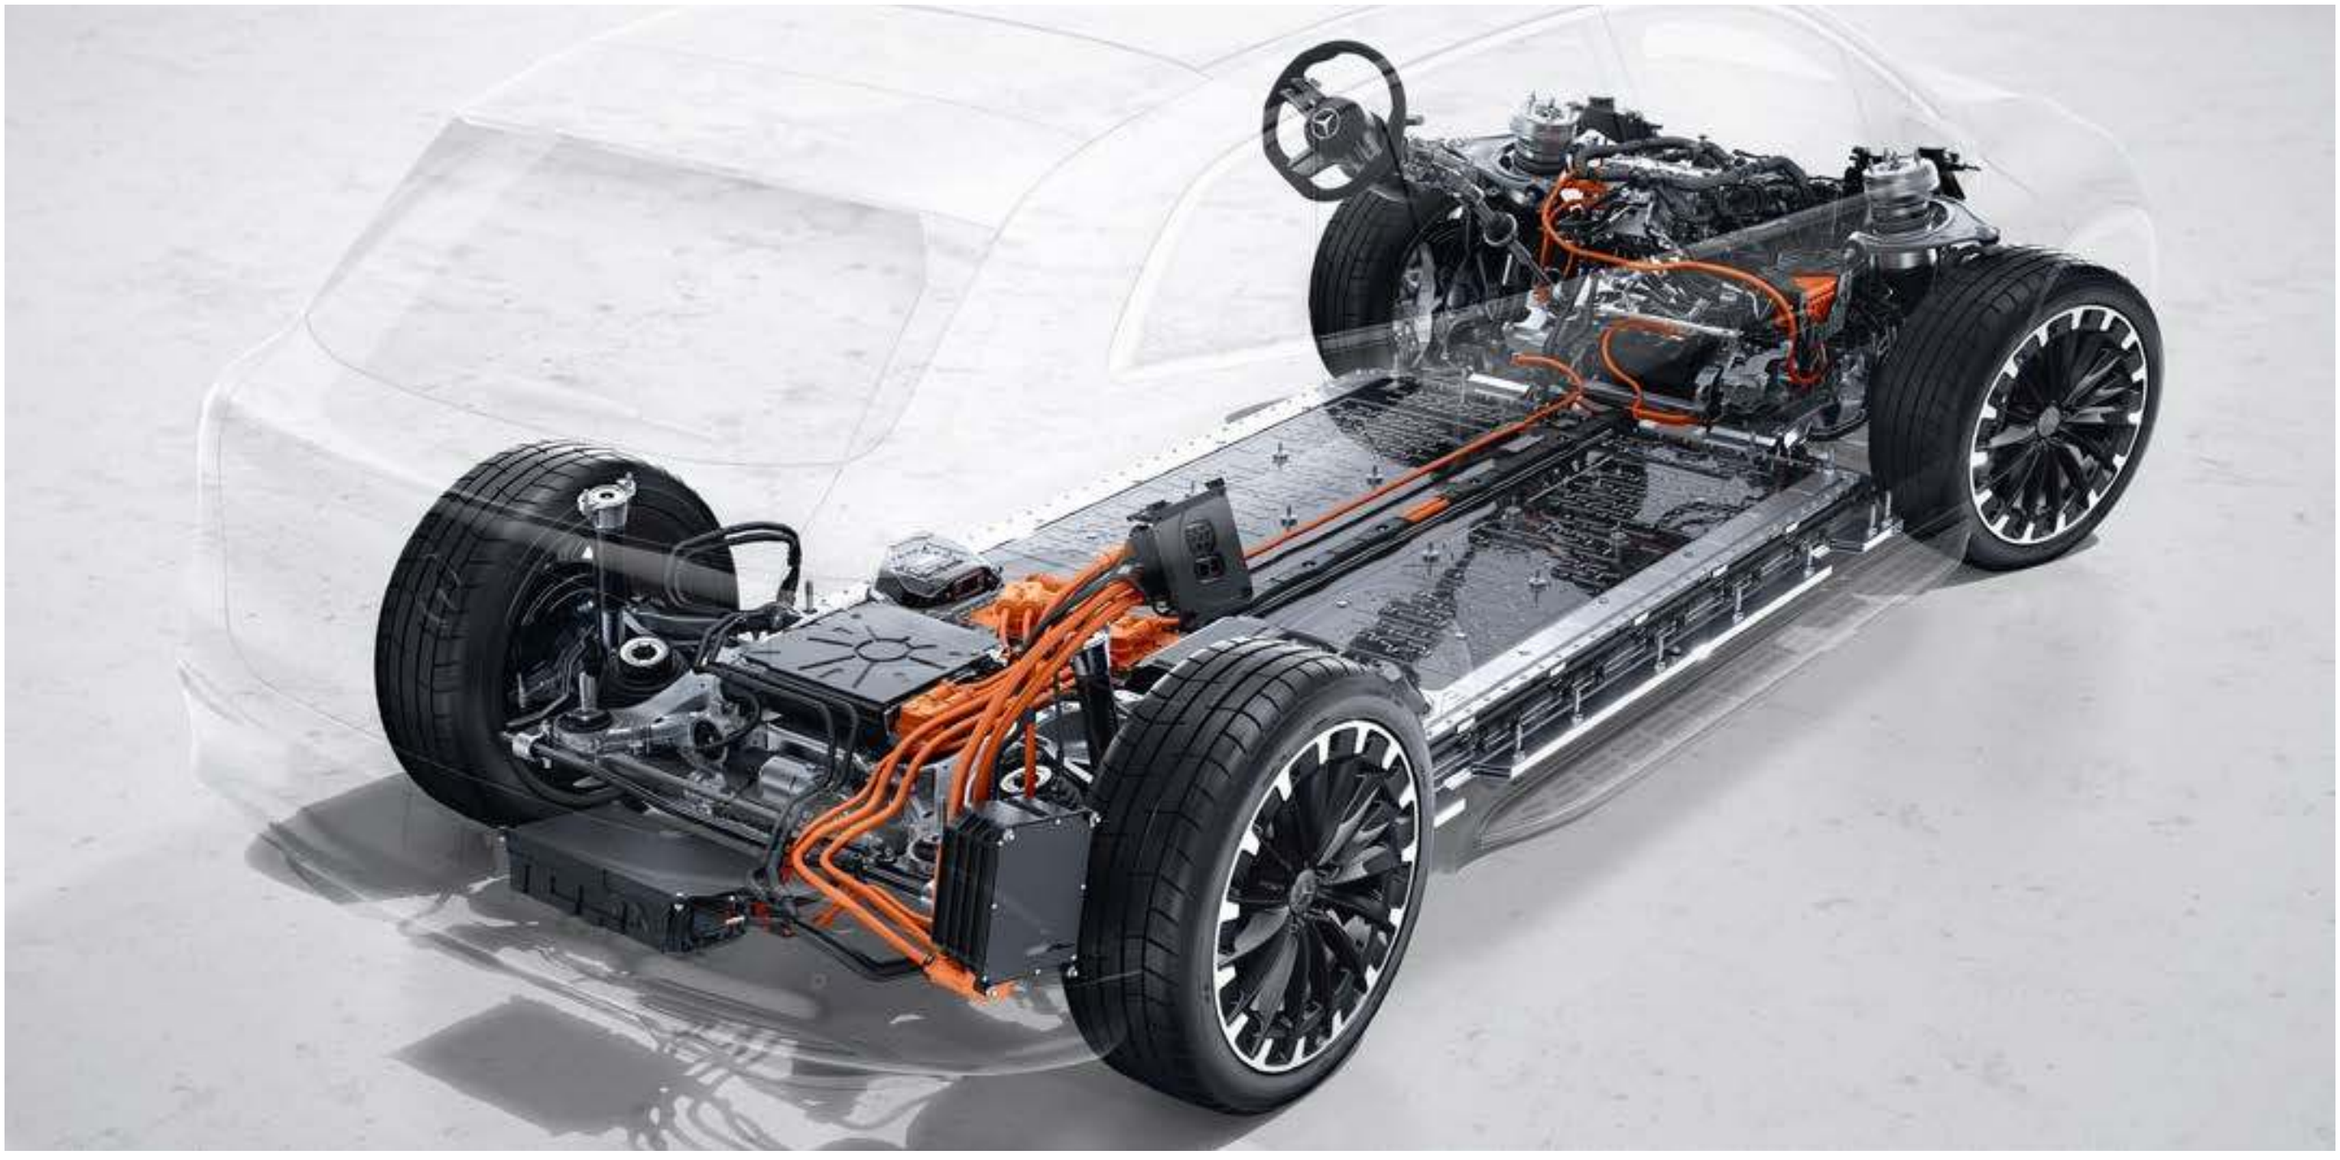
E-Motor & Battery

*Please read the disclaimer



TRACTION BATTERY
The power source in the EQS SUV is an advanced lithium-ion high-voltage battery with a modular design. It has a usable energy content of up to 122 kWh. The traction battery is installed in the vehicle floor between the front and rear axles and helps the EQS SUV to have a favorable center of gravity: as central and low as possible.

The world of Mercedes-Benz apps offers numerous services for your electric driving convenience. The navigation and Active Range Monitoring give you certainty with respect to range – including necessary charging stops.

With Preinstallation for Navigation Services your vehicle answers your questions about your journey or the current weather. Hence making your trip even easier.

Preinstallation for Live Traffic Information helps you receive traffic information in real time which is more precise and up-to-date than conventional systems and optimises dynamic route guidance.

This combination of Mercedes me connect services and hard-disc navigation allows you always to find the best route while ensuring that you are ideally informed at all times.

*Please read the disclaimer

Extended MBUX functions like personal profiles, predictive functions completely redefine the term digital networking.

Smartphone integration links the mobile phone with the media system via Apple® CarPlay® or Android Auto®. This gives you convenient access to the most important apps on your smartphone.

Save time, thanks to fast Hard Disk Navigation with flexible options for entries via touch control or voice input.

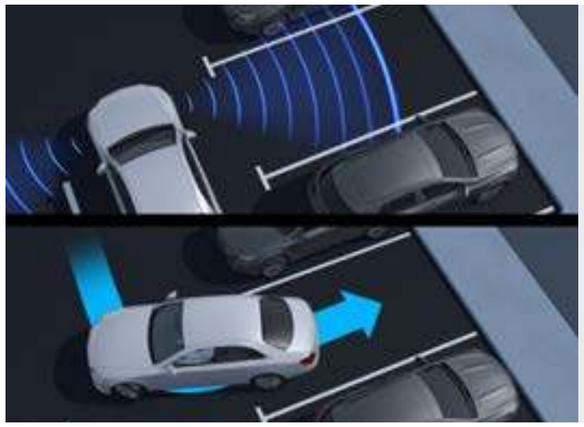
Safety

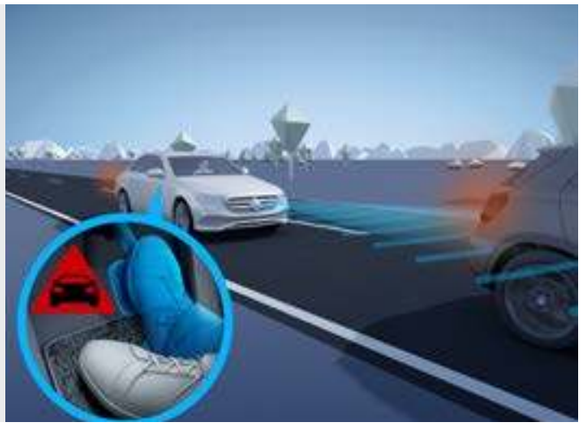
*Please read the disclaimer

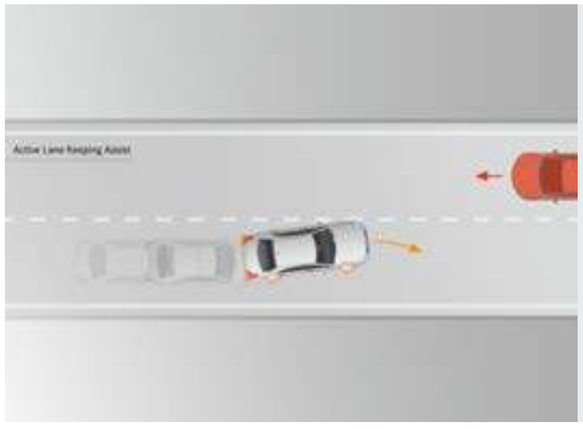


Active Parking Assist with PARKTRONIC makes parking smooth and effortless the system can detect suitable available parking spaces and assists with driving forwards and backwards into end-on parking spaces by taking over the steering for you.

Blind Spot Assist is able to give you a visual and audible warning of impending side collisions with other road users in the blind spot.

Active Brake Assist can help you to avoid rear-end collisions with stationary vehicles or vehicles in front.





With a continuous line, or if the lane behind a broken line has been identified as occupied, the Active Lane Keeping Assist system can intervene further with braking on one side of the vehicle.

Tyre pressure monitor system monitors the tyre pressure for you and provides you with a warning in the event of a drop in pressure.

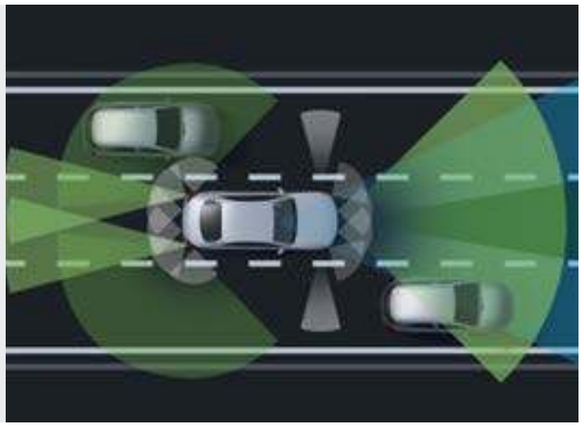
The acoustic presence indicator generates specific Mercedes-Benz sounds outside of the vehicle up to a speed of 20 km/h, So that your electric vehicle also does not pose a danger to pedestrians and cyclists when driving virtually silently.

The knee airbag protects your legs from contact with the steering column or the dashboard in a severe frontal crash. This can prevent or lessen the severity of injuries.

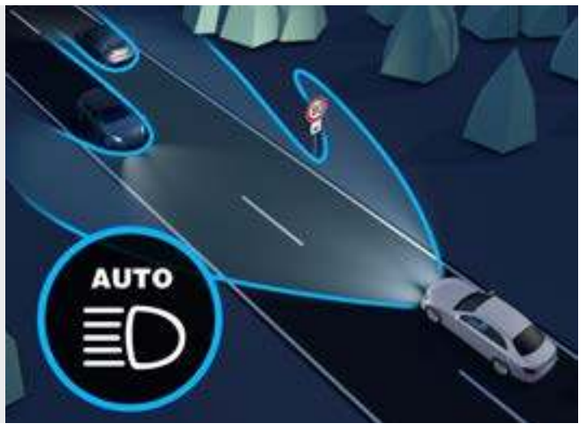
*Please read the disclaimer

With MBUX Navigation Premium you can reach your destination quickly and well informed. You can rely on up-to-date map data including satellite view, precise real-time traffic information and fast online route guidance. And last but not least, intelligently networked functions make your journey safer.

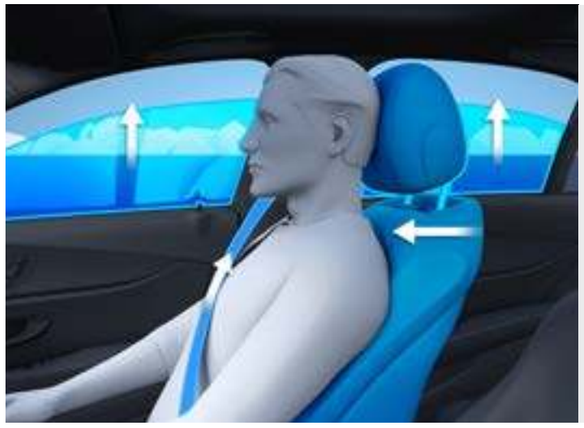
Enjoy the benefits of partially automated driving. Systems such as Active Distance Assist DISTRONIC or Active Blind Spot Assist can support you in the right situation, warn you if there is a risk of collision and intervene if necessary.



With Adaptive Highbeam Assist Plus, you drive with continuous high beam without dazzling others. The intelligent system excludes oncoming traffic or vehicles in front with highly precise LEDs: This means you do not have to constantly switch to the low beam and can better recognise the road and hazards thanks to the high headlamp range.



Navigation with Electric Intelligence* and active range monitoring create range safety. The route calculation takes into account the current consumption and route. Your vehicle plans necessary charging stops and checks whether the desired charging station is free.



In the event of an imminent accident, PRE-SAFE® takes measures that can reduce the strain on you and your passengers. For example, the system tightens the seat belts or closes the side windows. The innovative PRE-SAFE® Sound can protect the inner ear by dampening the noise of the accident.

PRE-SAFE® Impulse Side can prepare the occupants for a side impact and reduce the risk of injury. Like a bodyguard, it moves the driver or front passenger away from the danger zone and inwards.

Flexible, simple & transparent public charging. MB.CHARGE Public.

Streamline your charging experience with MB.CHARGE Public in the Mercedes-Benz App. Gain access to charging stations across India, all from your phone.

What does MB.CHARGE Public offer you?

Fast Access

Explore India with confidence. Locate 5,000+ nationwide charging points instantly. Smart Navigation guides you via the optimal route with real-time availability— no detours, no uncertainty.

All-in-one App

Manage your entire journey effortlessly. Discover stations and start sessions directly from your vehicle's MBUX, the Mercedes-Benz app, or your exclusive RFID card.

Complimentary Period

Enjoy privileged access to the MB.CHARGE Public network. The Digital Extra is complimentary during this period - simply pay for the charging cost and applicable fees.

Seamless Payments

Experience friction-free payments via your preferred wallet, card, or UPI. Receive an immediate digital invoice after every session for total cost transparency.

How to activate MB.CHARGE Public?

Step 1:

Tap on the 'Activate MB.CHARGE Public' button on the Mercedes-Benz App homepage

Step 2:

Tap on 'MB.CHARGE'

Step 3:

Tap on 'MB.CHARGE Public'

Step 4:

Tap on 'Complete details'

Step 5:

Tap on the sign-up link to create your profile, and add a payment method

Step 6:

Once registered, MB.CHARGE Public will be activated within 24 hours

Mercedes-Benz Services

Advance Assurance Program

Extending your warranty coverage
With Advance Assurance Program, experience complete peace of mind. While this Extended Warranty Program kicks in the moment your standard 3 years warranty comes to an end, it can be extended further up to 6 years at a nominal price. Also, it comes with a bouquet of privileges for a worry-free time with your Star.

STAR EASE

Delivering the best-in-class value
Servicing your Star does not get any better than this. With the STAR Ease Maintenance Packages, pay a defined cost of maintenance based on the model, contract period and mileage and say goodbye to spending on service every time. Plus, enjoy exclusive features like priority handling, shorter waiting time and quicker processes.
